May 5 Wadsworth, Mr
Onychomys: ♀. Stomach full
of insects, not identified.

Dipodomys: ♂ ad. Stomach
full of seeds and a little green stuff.
Some seeds in pouches; void.

Dipodomys: ♂. Stomach full of
mostly seeds, a little green stuff.

Spermophilus: ♀ ad. nursing.

Stomach intestine distended
with green herbaceous stuff.

Bladder full empty.

Spermophilus, ♂ ad. same as last.

Killed yesterday, not nursing.

Bladder full.

Spermophilus ♀ May 4 AM

has had 6 young.

Stomach full of mostly green

herbage, a little indeterminate.

Bladder empty.

Spermophilus ♂ May 4, AM.

Stomach with a little green

stuff + unripe seeds.

Bladder full.

Poor, genital organs immature.

Dipodomys: ♂ May 4,

Stomach mostly black seeds

with shells + green stuff.

seeds or leaves + some

other seeds.

Bladder empty.

Genital organs congested.

Dipodomys ♀ May 4,
embryos = small.

Stomach full of green leaves +
white seeds, black seed
shells in guts.

Bladder empty.

Dipodomys: ♂ May 4,

Stomach half full of
mostly green herbage,

some black seed shells.

Bladder full.

Genital organs congested.

Dipodomys ♀ ad. May 5

seeds only.

Bladder full.

The Hagerman Fossil
Lepidoptera
of the Hagerman Fossil 630

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and a small dark spot near the bottom left corner. The right edge of the page is slightly curved and shows the binding structure.

June 1, 1894. Sunday. Clear. 70-80.

Left at 8:00 AM. Arrived at 10:00 AM. Fine day.

Visited the old mill. Very interesting. Saw many birds.

Went to the lake. Beautiful view. Many fish.

Spent the afternoon at the house. Read some books.

Wrote a letter to Mr. Smith. He is well.

Had dinner at the hotel. Very good food.

Went to the park. Many children playing.

Spent the evening at the concert. Very nice.
